Gold Coast in Queensland.

And Sophie Lee will host The Bugs Bunny Show from the park for two weeks from June 3.

Open to the public from June 3, Movie World — a joint venture by Warner Bros. Inc., Village Roadshow Limited and Sea World Property Trust — was designed by American C.V. Wood, the man behind Disneyland.

"I swear Movie World is a lot better than what they've got in Orlando (Disneyworld)," Mr Wood says. "Unlike other parks, we have a film studio that's in operation. People will get a real education about the film-making process."

Daryl is particularly impressed by the Western-style stunt shop, featuring a "bad dude", Black Bart, played by David Bracks.

Sheriff Daryl was the hero of the day in a mock run-in with Black Bart and, after defending law and order, rode into the sunset with his adoring ladies, Sophie and Sale Of The Century's Jo Bailey.

The trio was side-tracked, however, while riding down Movie World's Main Street.

The sheriff turned from moral crusader to villain at the scene of a Bonnie and Clyde bank robbery — and from villain to artiste outside the Roxy Theatre.

Then Daryl, Sophie and Jo produced a

stunt of their own on the Police Academy set.

Jo had onlookers laughing when posing for a shot with a police vehicle — until they realised her screams were for real.

Her fingers were jammed in the car window.

The Dirty Harry Bar, watering-hole of the rugged homicide detective, is another of Movie World's attractions, as are Young Einstein's Gravity Homestead, Batman's hang-out (the Gotham City Cafe), a replica of The Daily Planet newspaper building (from Superman) and Rick's Cafe

Americain (from Casablanca).

Narrated studio tours will take visitors through these and other Movie World attractions including the Super Stage 5, which houses one of the largest water tanks ever built for filming underwater sequences, the Visual Effects Stage and the Sound Effects Stage.

Another attraction is the Screening Room, where Gremlins — from the hit movies — take control of the projection booth.

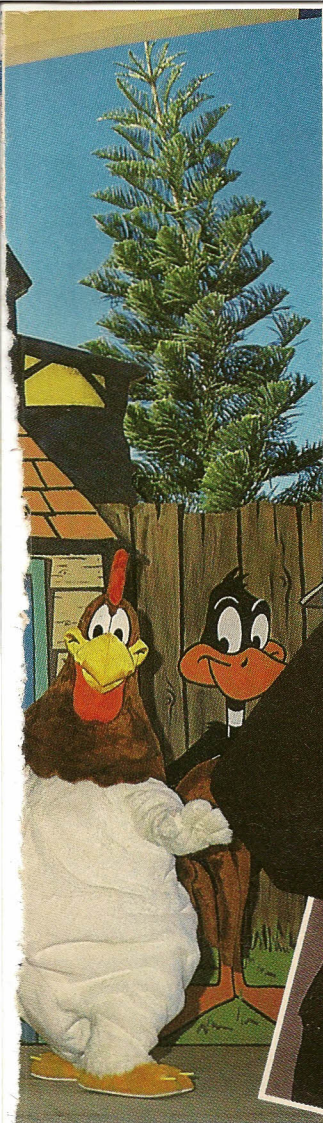

Visitors are hustled into automated trolleys and taken on a wild ride to escape the creatures.

The adventure continues at the Looney Tunes Studio, where a journey is taken into fantasy with the colorful legends of cartoon, including Bugs Bunny, Daffy Duck and Yosemite Sam.

A chase begins to find Bugs, taking visitors through underground rapids, past eerie landscapes and plunging into deep ravines.
